telc language certificates for medical personnel

*Professional German language skills –
your key to a successful career in Germany*

"Because I had to prepare for the telc German B1·B2 Nursing exam, my German improved. I was also very well prepared for my job interview. It was worth it – I got the Job!"

Maria de la Cruz, 28, Registered Nurse in Frankfurt

"We must ensure that in Germany, patients and physicians understand each other fully – that means word for word!"

Johannes Singhammer, CSU deputy parliamentary party leader, Süddeutsche Zeitung, 03.11.2013

Two examinations – two proven records of success!

The German language certificate for physicians **telc Deutsch B2·C1 Medizin** proves your ability to

- conduct doctor patient communication successfully
- communicate effectively with nursing staff
- write standardized doctor's letters
- understand and use medical terminology correctly

The German language certificate for nursing staff **telc Deutsch B1·B2 Pflege** proves your ability to

- communicate successfully with patients, family members, doctors and colleagues
- understand instructions, case histories and other situations dealing with patient care
- document treatment
- understand and use the language of hospital and elderly patient care

telc GmbH is a subsidiary of the German Adult Education Association (DVV) and has been developing standardised language tests for over 40 years. Over 70 language certificates in 10 languages at all proficiency levels of the Common European Framework of Reference for Languages (CEFR) are recognized worldwide by employers as well as government and academic institutions.

We encourage mobility across Europe by preparing medical professionals for a career in Germany!

telc language certificates help physicians and nursing staff certify their professional German language skills at the Council of Europe's proficiency levels B1, B2 and C1. Quality assured and in accordance with international standards, the telc language certificates for physicians (B2·C1) and nursing staff (B1·B2) are fully recognized by German authorities.

Put your professional language skills to the test and prove that you can master everyday work situations confidently and with ease. telc language certificates for physicians and nursing staff hope to help alleviate the shortage of skilled medical professionals in Germany.

Regierungspräsidium
Darmstadt

What do the exams test?

Both exams are based on practical situations typically experienced in a medical and/or nursing environment and mainly test your ability to communicate in daily professional life.

How can I acquire a telc language certificate?

telc language exams are conducted exclusively by specially trained examiners at one of our many licensed testing centers worldwide. To find an examination centre near you, go to www.telc.net and search by country or postal code.

telc is a member of  Association of Language Testers in Europe
