*telc English Certificates:
The Proof of Excellence!*

"We are the test provider that takes the European Commission's goals of multilingualism seriously."

Jürgen Keicher
Managing Director, telc gGmbH

"In today's globalised world it is increasingly important for employees to prove their English skills. That's why certificates based on the CEF play such a key role."

Dr. Ian McMaster
Editor-in-chief, Business Spotlight

European standards for global players

telc – language tests are based on the Common European Framework of Reference for Languages (CEF) and have been developed to meet the needs of learners worldwide:

- **telc general language tests** are intended for adults who wish to certify their language abilities and thereby achieve their personal or professional goals.
- **telc business tests** are aimed at everyone seeking certification of their language competence for business and professional purposes.
- **telc school tests** are designed for students aged 12 years and older who are interested in more than a standard school certificate to document their language competence.

Bachelor and Master Programmes: telc certificates serve as proof of language competence for admission to colleges and universities or as credit points for mandatory language courses. Ask your student advisor for more details!

Ground-breaking dual-level examinations

telc – The European Language Certificates is currently the only language test provider to offer English examinations that cover two different levels of the CEF in one test:

- **telc English A2-B1 General / Business / School**
- **telc English B1-B2 General / Business / School**
- **telc English B2-C1 Business / University**

The dual-level examination encourages learners to take the test and determines exactly where their skills lie. Upon completion of the test, the candidates receive a breakdown of their skills for each of the separate areas of reading, writing, speaking and listening, together with their overall.

telc English! Your advantages at a glance
