

ENGLISH PRACTICE MATERIAL

Four skills! For you!

Our **teaching material for English lessons** consists of four modules – one for each of the skills Speaking, Listening, Reading and Writing.

The target group are **adult learners** at competence levels **A2 and B1** or **B1 and B2**. All four modules contain 20 lessons. Each lesson focusses on an emotion, such as Happiness, Anger, Disappointment, Curiosity, Fear, Nostalgia or Surprise.

With this series, we try to **encourage participants to speak** more and overcome their apprehension and fear of making mistakes.

Each lesson is a self-contained unit. In this way different lessons can be flexibly combined. The four modules can be used as examination preparation for A2, B1 or B2 levels. The course books can also be used for specific goals, such as conversation or reading.

A free **teacher's handout** is available for free download, with helpful classroom suggestions, additional background information and tips for practice.

In addition, Online Learning Activities are also available for exam preparation. You can find out more on the next page.
