

telc — speak the future

telc

Publishing programme

The telc publishing department develops printed and digital teaching materials for **German as a foreign language** and **German as a second language**. We consistently focus on curricular standards and on the Common European Framework of Reference (CEFR).

telc textbooks for **integration courses** and the associated exam training book provide the perfect preparation for course participants taking the exam *Deutsch-Test für Zuwanderer (DTZ, German test for immigrants)* and for those planning to live in Germany.

Our general and subject-specific textbooks for **work-related German classes** provide the learner with the necessary skills to communicate fluently in everyday and work situations. Participants can also prepare for the *Deutsch-Tests für den Beruf (DTB, German tests for the workplace)* using the associated exam preparation books.

Qualified professionals, students and learners who are striving to receive their naturalisation quickly reach their goal with our teaching materials and examination preparation for the **general German language and university admission**.

All telc textbooks have one thing in common: They convey communicational competence and focus on preparing students for **language examinations**. Because as **examination providers** we know exactly what is required.

Do you need consultation, want training on our materials or consider pilot-testing a textbook? We are only too happy to advise you on all questions regarding our textbooks at: [sales@telc.net](mailto:sales@telc.net)
